Customer Testimonial for Dr Stuart Weitzman

Help on the Road.

My home is in Union Kentucky just outside of Cincinnati, Ohio.

I first visited Dr Stu late last year while traveling through New York on Business.

My company's Corporate Headquarters (Fuji Film/Enovation) is located in Valhalla.

While visiting that NY office my back went out and I was in severe pain 1200 miles from home.

Annette, a friend of mine from that office, recommended Dr Stu based on her family's positive experience.

Barbara, Dr. Stu's administrative assistant, was able to get me in on short notice and the results were terrific.

Not only was Dr Stu helpful but I went from not being able to stand one day to dancing the next night at a company function pain free.

With my back condition I find Chiropractic care the only way to keep both pain free and in good health. Over the past 30+ years or so I have been worked on by approx 20 or more different DC individual practitioners.

My personal DC in Northern, KY, whom I see every 6 weeks or so, does a great job.

But in all honesty Dr Stu is the best I have ever experienced. I try to see him whenever I am in NY as he seems to have a special gift to get just the right movement every visit. For me that is very unusual despite years of such care.

I have no hesitancy in recommending Dr Stu to anyone and I am grateful he has taken me in as a patient so far from home.

Thank you Dr Stu and Barbara for great service and for being great people.

Jim
